I started to learn web development last year. It was an informed choice to change my profession, so I'm very motivated to develop my career. I've become interested in Frontend development because I can immediately see the result of my work. Also there are many ways to create a product and you can always do better. Now I'm practicing Frontend with Codecademy and taking English lessons. As for interests, in my free time I enjoy sports.

WORK EXPERIENCE

Graduate
TeachMeSkills

08/2021 - 04/2022   *Belarus, Minsk*

The studing consisted of 208 academic hours, during which I studied: • fundamenta HTML, CSS; • Git and GitHub; • JavaScript Syntax; • TypeScript; • API, Web storage API; • Async JS and HTTP Requests; • React (HOC, Router, Context, Hooks); • Redux (middleware, Reduxthunk | Redux-saga);

Достижения:
- Graduate work - web-application MyFitnessApp. This app allows to manage your sport activities and it helps people to reach and control their sports goals. In the course of this development, I set up Webpack by myself, used functional components with their hooks, learned and practiced ReactJS, Redux, Node.JS, HTML, CSS, JavaScript, Ajax, API, REST.
